Who is the Eedy LymBurner FOUNDATION?

The Eedy LymBurner FOUNDATION is devoted to the goal of ensuring HUMAN RIGHTS around the world. This means EQUAL & OPEN Access locally on the streets of the industrialized world or globally in the rural outreaches of the third world.

The FOUNDATION aims to MONITOR and EDUCATE people on their HUMAN RIGHTS for SOCIAL MOBILITY.

For the FOUNDATION Human Rights is like the rain, it must fall equally on everyone no matter their religion, age, intelligence, sex, nationally, wealth or any man made consideration.

For the vulnerable generally such as the disabled, displaced, children and elderly, the FOUNDATION supports efforts in a muscular fashion to allow them to make informed decisions like everyone else in their own best interests like everyone else no matter their mental or physical conditions or outside influences.

Since lawyers are control persons in society that represent individuals in the courts, before the police or other agents of the state by supplying legal opinions and documents, they are the focused medium of the FOUNDATIONS efforts. People put their TRUST in their lawyer's ability to represent their clients best interests. In effect people use them to effect personal goals defined under HUMAN RIGHTS and the states laws. Education and Support Resource development is focused on fulfilling our mandate In essence, we develop tools such as MY_Lawyer APP for individuals to access legal assistance and support at any time and any place.
